Admixture PCE powder

Description:

Admixture PCE powder is a superior quality Superplasticizer cum very high range water reducer based on high molecular weight Polycarboxylate Copolymers.

Primary uses:

1. To produce free flowing and self compacting concrete at a low dosage.
2. To increase the compressive strengths of the concretes and mortars to highest possible limits.
3. To bring down the water cement ratios to bare minimum.
4. To achieve early high strengths.
5. To achieve prolonged workability.

Advantages:

Admixture PCE powder is a white powder hence does not change the colour of concrete.

Admixture PCE powder is highly useful in precast units.

Shandong Zhuoxing Chemical Co., Ltd.
Zibo Zhuoxing Enterprises Co., Ltd.

Admixture PCE powder is of special advantage in concreting RCC members with congested reinforcements.

Admixture PCE powder is very easy to dose. The dosing quantity of the material can be added to the concrete or mortar mix at any stage of mixing.

Admixture PCE powder is economical in usage because it works at low dosages for producing the same results when compared with commercially available PC based admixtures.

Quality:

physical state	white powder
packaging type	woven bags
packaging size	25kg
Brand	Zhuoxing
