## **viscosity-reducing type high performance polycarboxylate superplasticizer**

viscosity-reducing type high performance polycarboxylate superplasticizer has excellent dispersion performance while maintaining good retention due to our cutting-edge processing technology. It has a wide range of applications, and is used in industrial fields such as ordinary concrete, pumped concrete, and self-compacting of high-strength and durable concrete projects.

### **Features**

1. Greatly improved the flow ability of concrete.
2. Significantly improve concrete comprehensive strength of concrete, especially early strength.
3. Economical concrete design.
4. Low concrete viscosity.
5. Improve the turnover rate of precast concrete formwork.

### **Application:**

Bridges, high-rise buildings and structures which requires

high strength and durability.

Prefabricated, Pre-cast, pre-stressed elements.

Self-compacting concrete.

Highway, Subway, Tunnel.

**Package:**viscosity-reducing      type      high      performance  
polycarboxylate superplasticizer is packed in woven fabric bag  
with plastic liner, including 25kg per bag.

**Storage:**viscosity-reducing      type      high      performance  
polycarboxylate superplasticizer should be stored in a  
dedicated warehouse that is well-ventilated and dry. The shelf  
life is one year. After the expiration date, it can be used again  
if the testing results fall within the established range.

**Transportation:** It is non-dangerous products. It can be  
transported by train, ship and truck.
